

ENTERTAINMENT COMMITTEE

Campus life events and activities are an important part of university experience. Events hosted by the Entertainment committee provide opportunities for students to connect with each other and the TRU Community. These events serve students by helping them discover new interests, build lasting relationships, and learn new skills.

The Union curates the activities of the Entertainment Committee to serve students by providing them a series of safe and low barrier entry events throughout the school year. Student experience at these events is further enhanced by ensuring that these events are unique and are unlikely to be easily accessible in the Kamloops Community.

This past year, the Entertainment Committee, successfully delivered a line-up of marquee events along with launching of the TRUSU Welcome Breakfast, building the Annual Winter Fest with increased programming, and developing the brand identity for Adventure themed movie nights.
