

# ENTERTAINMENT COMMITTEE

Campus-Life events and activities play an imperative role in the university experience. The committee has worked towards a deeper student engagement, stronger community partnerships, and a more holistic approach towards campus life. The entertainment committee worked towards refining programs to create spaces where students feel connected, supported, and represented.

A key theme considered when working towards the events was an added emphasis on accessibility. Across events, the union through the entertainment committee worked towards reducing barriers and ensuring students could participate meaningfully regardless of background or circumstance.

The committee also marked an important step in expanding the union's reach to include students in Open Learning. Entertainment events were designed to program and inculcate pathways for online learners to feel part of the TRU community.

Over the past year, the Entertainment Committee successfully delivered a line-up of marquee events and strengthened the brand identity of adventure-themed movie nights and TRUSU Games Night.

## QUICK FACTS
